MY OBJECTIVE (WHY YOU SHOULD GIVE ME MONEY)

i am looking for a job that pays a lot of money but doesnt ask me to do too much. i hate working in teams because people are stupid. i prefer working from home so i can play video games during work hours. if you are a micro-managing boss, PLEASE DO NOT HIRE ME!!!!!!

WORK HISTORY (MOSTLY BAD LUCK)

Junior Programmer - Bad Company Inc

Duration: Jan 2024 - Feb 2024 (2 months)

- I was fired because the manager was crying about me always being late on Mondays. Mondays are boring anyway.
- Refused to fix bugs because they were not created by me.

Web Designer - Freelance / Unemployment

Duration: 2022 - 2023

- Did nothing mostly. Just argued with people on Twitter and TikTok.
- Sometimes watched YouTube tutorials but forgot everything immediately.

SKILLS (THINGS I AM GOOD AT)

- ✗ Playing Mobile Legends (Mythic Rank)
- ✗ Sleeping for 12 hours straight
- ✗ Complaining about politics
- ✗ Copying code from ChatGPT without understanding it (10/10 skill)
- ✗ HTML (I know how to make text bold, sometimes)

EDUCATION

Dropped out from some university because the exams were too hard and professors didn't understand my genius. (2019-2020)
