PROFESSIONAL SUMMARY

Results-driven Senior Full Stack Developer with over 5 years of experience designing, building, and deploying scalable web applications. Proficient in modern JavaScript frameworks, cloud infrastructure, and agile methodologies. Passionate about optimizing code performance and mentoring junior developers.

WORK EXPERIENCE

Senior Software Engineer

TechCorp Co., Ltd. | Bangkok | Jan 2023 - Present

- Led a team of 4 developers to rebuild a legacy e-commerce platform into a high-performance React/Node.js application, improving page load speeds by 40%.
- Designed and implemented microservices architectures using Docker and AWS (ECS, Lambda), enhancing system reliability and scaling capabilities.
- Optimized database queries and schemas in PostgreSQL, reducing API response times by 25%.

Full Stack Developer

WebStart Solutions | Bangkok | Jun 2021 - Dec 2022

- Developed and maintained multiple client-facing web applications using Vue.js and Python (Django).
- Collaborated closely with UI/UX designers to translate wireframes into responsive, pixel-perfect web interfaces.
- Integrated third-party payment gateways (Omise, Stripe) and automated CI/CD pipelines using GitHub Actions.

SKILLS
